

810 Market Center Invoice

Interchange Control Header (ISA):

ISA~00~ ~00~ ~ZZ~12345 ~ZZ~01100MC ~120201~1500~U~00401~000000001~0~P~<

Functional Group Header (GS):

GS~IN~12345~01100MC~20120201~1500~0001~X~04010

Implementation Notes:

- Version in the ISA relates strictly to the version of the ISA and not the version of the transaction.
- Version in the GS identifies the version of the transaction.
- NOTE: Populate ISA15 with 'T' to send invoice to the "TEST" environment.
